Easy Dashboard Navigation

You can find the navigation menu on the left-hand side of the page, which allows you to navigate through your store's backend.

Each option will be explained in detail later in the presentation

Configure your store settings to complete setup

Hover over the settings on the navigation menu and click on the store popup you can finish store configuration

Settings → Visit Store

By simply clicking the 'Upload Banner' button, you can upload a banner for your store. It's important to use a high-resolution, high-quality banner, as it will be displayed prominently at the top of your store page

Update Settings

Upload banner

Upload a banner for your store. Banner size

In addition, you can upload your logo as the profile picture. You can also edit settings such as store name, products per page, address, and update the phone number

After updating your settings, be sure to save the changes by clicking the '**Update Settings**' button located in the top right-hand corner of the page

Visit Store

After setting up your store, you can now view it by clicking on the 'view store' icon. It will automatically redirect you to your store.

Enable your customers to easily share your store or product pages with a convenient QR code. Simply share QR code of your store or product page, and let your customers scan it with their smartphones to instantly share the link with their friends and followers on social media, via email or messaging apps. This feature is a great way to increase your online visibility and drive more traffic to your store, while making it easy for your customers to spread the word about your business.
